

WORSHIP

MISSION // LEADING PEOPLE INTO A LIFE CHANGING RELATIONSHIP WITH JESUS

The worship team supports this mission by creating environments where the Holy Spirit is encouraged to move and people can encounter Jesus.

WE NOT ME

The worship team is on stage to lead others as an example of worship. Their role isn't a performance, but an expression of their personal worship.

IT'S PERSONAL

Each individual's expression of worship is rooted in a personal life filled with worship and focused on a relationship with Jesus. Leading by example, the worship team helps establish the culture of worship by passionately engaging in the "it's personal" value.

MAKE IT BETTER

The worship team is encouraged to continue to develop their abilities. We are consistently striving to bring our best by continually learning, collaborating with others on the team, and seeking constructive feedback on a regular basis.

CHAMPION
THE STORIES

We are always sharing the stories of how God is moving, both on stage and off. Everyone on the team is encouraged to share their own stories and build relationships with each other.
